17 January 2025

NOTICE

Dear students,

As you approach the third year of your academic journey, it is time to select a project topic and domain that aligns with your interests and aspirations. To assist you in this process, we have organized a **Zero-Level Presentation**.

The Zero-Level presentation aims to provide you with an opportunity to present your initial project ideas and receive feedback from faculty members and peers. It will serve as a platform for refining and enhancing your project plans before proceeding further.

The details of the zero-level presentation are as follows:

Date: 24 January 2025

Time: 2:30 PM Onwards

Venue: Project Lab (Second Floor)

During the presentation, you will have a 10-minute time slot to showcase your project idea. You can outline the topics and domain. After your presentation, there will be a question and answer session where you can address any queries or concerns.

This presentation is crucial in shaping your third year project, as it allows you to gather valuable insights, suggestions, and feedback from experts in your field. We encourage you to make the most of this opportunity and actively participate in the discussion.

Please prepare your presentations and ensure that you are confident in presenting your ideas.

Prof. Sheeba Naaz
TE Project Co-ordinator

Dr. Afzal Shaikh
HOD, EE

Innovative Teaching - Exuberant Learning

Vision : To be the most sought after academic, research and practice based department of Electrical Engineering that others would wish to emulate.
